 You can also dial in using your phone.
 United States: +1 (786) 535-3211
 Access Code: 834-241-389

The students will learn how to use Adobe XD. Students will use this UX/UI design tool to create a beautiful User Interface & streamlined User Experience. This course is aimed at students new to design & user experience and will start right at the beginning and work their ways through step by step. This course will show students how to construct a good brief & UX persona then learn to create simple wireframes, from there will learn how to implement colors and images correctly in their designs. Students will learn the do's and don'ts of choosing fonts for web and mobile apps while building & prototype both a website design and a mobile app design, connecting pages and also adding full interactivity ready for user testing. There is a project for students to compete during this class which will help develop students' skills and will give them something for their own portfolio.

Date	Course Content/Exercise	Documents	Discussion
Nov 7	Complete Section 1, 1-4	- Download Adobe XD (Free) -Download Exercise Files.zip	Instructor introduction, introduction to UX/UI Design, In depth learning of UX, Adobe XD, Q&A
Nov 14	Complete Section 2, 5-8	-Download UI Kits in Adobe.zip -Download XD Wireframes.zip -Download Checkboxes & buttons.zip	Lecture on UI Kits, Wireframes, creating forms, checkboxes & buttons, go over students works, demonstration from instructor, Q&A
Nov 21	Thanksgiving Break- no lecture		
Nov 28	Complete Section 2, 9-12	-Download Free icons UX UI projects.zip -Download Interactivity.zip -Download Students view.zip -Download Symbols.zip	Lecture on adding icons, Prototyping & adding interactivity and symbols, go over students works, demonstration from instructor, Q&A
Dec 5	Complete Section 2, 13-16	-Download Repeat grid.zip -Download App.zip -Download iPhone & Android.zip -Download Sign up screen & Dashboard.zip	Lecture on repeating grids, and app XD design on iPhone and Android, Sign up screen & dashboard, go over students works, demonstration from instructor, Q&A

Dec 12	Complete Section 2 &3, 17-21	-Download Sharing Wireframes for comments.zip -Download Hi Fidelity UI design.zip -Download 12 column grid.zip -Download Create 12 column grid.zip -Download Colors.zip	Lecture on sharing wireframes for comments, Hi fidelity UI design, 12 column grid, adding/segments of colors, go over students works, demonstration from instructor, Q&A
Dec 19	Complete Section 3, 22-27	-Download Fonts.zip -Download Character styles.zip -Download Paste properties.zip -Download Custom icons.zip -Download Gradient & blur.zip -Download Images inside.zip	Lecture on choosing fonts, images, character styles, paste properties, custom icons, gradient & blur, go over students works, demonstration from instructor, Q&A
Dec 26	Christmas Break- no lecture		
Jan 2	New Year's Break- no lecture		
Jan 9	Complete Section 3, 28-30	-Download InDesign.zip -Download Mask.zip -Download Text fields & buttons.zip	Lecture on Illustrator, Photoshop & InDesign (differences, brief introduction on how it's used, pros and cons), production video, how to mask, go over students works, demonstration from instructor, Q&A
Jan 16	Complete Section 3, 31-32	-Download Blurred background.zip -Download Grid tool.zip	Lecture on grid tool, how to make a popup model with a blurred background, creating 12 column card dashboard using the repeat grid tool, and go over students works, demonstration from instructor, Q&A
Jan 23	Complete Section 3, 33-34	-Download Mobile phone mockup.zip -Download APP version.zip	Lecture on how to make a mobile phone mockup with XD & Photoshop, making an APP version of a project, go over students works, demonstration from instructor, Q&A

Jan 30	Complete Section 3, 35-36	-Download Repeat Grid.zip -Download Buttons & dropdown menus.zip	Lecture on hidden features of repeat grid, prototyping using buttons & dropdown menus, go over students works, demonstration from instructor, Q&A
Feb 6	Complete Section 3, 37-39	-Download Mockup.zip -Download Developers.zip	Lecture on Prototype tricks, UX User testing and how to export images & code for developers, go over students works, demonstration from instructor, Q&A
Feb 13	Complete Section 4, 40-42 Completion of final project	Certificate of Completion	Last day of program, go over students completed project, final thoughts from instructor, Q&A
